Optimum Time or Match the Clock G611

These classes are designed to help developing riders learn the skill of riding a course at the posted speed, rather than with the fastest time. Competitors with equal faults will be placed according to how close their time is to the optimum time, which is based on the course being ridden at the posted speed. The Optimum time should be 4 seconds less than the time allowed. The length of the course, the posted speed and time allowed are noted on the course map.

Jumper Equitation (classes 1,3,5,7)

Judged on rider's position and effectiveness. Seat, hand, guidance and control. In the judge's opinion, performance of horse may not affect score if faults not a result of ineffective riding. In a Jumper Equitation class a horse may be shared by two riders on separate entry forms.

Jumper Medal (classes 9,11)

Judged on rider's position and effectiveness. Seat, hand, guidance and control. Jumping faults scored. In a Jumper Medal class horse may not be shared
